\* **DID YOU KNOW?** The tradition of an engagement ring was introduced in 1477. Archduke Maximilian of Austria gave Mary of Burgundy a Gold ring set with a diamond as a token of love.

## Expert Guide TIPS FOR THE BRIDE

Evelyn Mills, founder of international wedding and luxury event consultancy, Marriage Maestros, shares with us her top tips for brides-to-be.

### Look your best!

Get to bed early, drink plenty of water and cut down on your salt and alcohol intake throughout the week before your Big Day to achieve the ultimate glam glow and rock a sleeker silhouette!

### Daddy's Little Girl

After spending the morning getting ready with your mom, have a 'first look' with your dad before he walks you down the aisle. It will be a precious moment for just you and him to cherish before he gives his little girl away...

### Loving You

The day after your fiancé proposes or the night before your wedding day write your future hubby-to-be a letter describing how excited you feel to be marrying him. Seal it in an envelope and save it for your honeymoon. On the first night, tuck it under his pillow for him to find...

### Signature Touches

Create a signature cocktail or a blend of ice-cream that appeals to both your palates and name it a portmanteau of your names!

### Don't Sweat the Small Stuff

Following months of planning and preparing, you deserve to enjoy your day, so try not to stress over minutia that frankly only you would notice and just go with the flow and soak it all in!
